\$1.50 a Year; 5c a Copy

VOLUME 35: No. 30

Rev. J. G. Roberts left Wed. for Kingston, Ontario to attend a Social Service Conference.

Harley Wilson and daughter Betty of Strathmore were Sunday visitors at the home of Mr. and Mrs. Stan Torrance.

Miss Ethel Coates of Devon is at present visiting with her parents Mr. and Mrs. Hubert Coates.

Mrs. Frank De Chene and her daughter Bessie of Drumheller were Edmonton visitors this week.

Hospital patients this week are August De Becker, Dean Twiss, Mrs. August Gieck, Beverly Saunders, W. Douglas.

Stephanie Roberts returned home Sunday with Mr. C. H. Nash who had been visiting at Stettler at the home of his daughter and son-in-law.

HOUSES FOR SALE

Three Room House on two lots by Bill Douglas. Damaged by fire.

Three Room House, Porch, two lots on the hill by Jim Flaws — Apply Bill Bugovich, Carbon Hotel.

FOR SALE—4-Roomed House and Garage on two lots. Good Location.

—Albert Bramley, Box 35, Carbon.

GRAVEL HAULED—Call 714 Earl Balderson, Acme for sand and gravel requirements.

UNWANTED HAIR

Vanished away with Saca-Pelo. Saca-Pelo is not like ordinary depilatories that remove hair from the surface of the skin but penetrates through the pores and retards the growth of the hair. Lor-Bear Lab. Ltd. Ste. 5, 679 Granville St., Vancouver, B.C.

ELI SPRY

Funeral Services were conducted from the Carbon United Church Monday afternoon at 2 p.m. Rev. Mueller, assisted by Rev. Roberts officiated at the last rites for Eli Spry, 74, who passed away Thursday of last week.

Interment followed in Carbon cemetery.

Pallbearers were: Fred Schmierer, Alex McArthur, Fred Bessant, Sam Garrett, C. H. Nash, Syd Cannings.

Mr. and Mrs. Art Scheffelmaier and children of Calgary (nee Cynthia Barnes) were visitors at the homes of Mr. and Mrs. George King, Mr. and Mrs. Al Barnes and Mr. and Mrs. J. Barnes.

Mr. and Mrs. Raymond Harsch and daughter, Miss E. Sawen, Mr. Alvin Harsch of Sioux Falls, U.S.A. are visiting at the home of their parents Mr. and Mrs. Chris Harsch and brother and sister-in-law, Mr. and Mrs. Richard Harsch.

Allen Fuller, one of our senior citizens, celebrated his 76th birthday this week.

Barbara Nash entertained a few of her school pals Friday evening in honor of her 14th birthday.

Leona Rempfer is employed on the staff of the Nash and Pernann store.

Mrs. Chas. Trumbley was visiting at the home of her daughter and son-in-law Mr. and Mrs. Frank Grainger and also making calls on her old friends.

Mrs. Oliver Johnston and family left on Monday to make their home at Ponoka. Sorry to see them leave.

Admired at the home of Mr. and Mrs. Frank Sherring, a daughter, Debra Lynn. Pretty nice, we bet, Hilda and Frank.

Mrs. Isaac, we are pleased to say, has left the Drumheller hospital and is now a patient in the Argyll Nursing Home in Calgary.

Mrs. E. Wiffen was a Calgary visitor for a couple of days this week.

ARTIFICIAL INSEMINATION UNIT TO BE SET UP AT ACME

A well attended meeting was held in Acme Memorial Hall on Thursday evening in an effort to establish an Artificial Insemination Unit in this district. The meeting was under the chairmanship of Mr. Stan Pettem, our District Agriculturist.

Dr. J. A. Greenway gave a brief background on A.I. work and procedure and suggested several methods under which a unit could be formed.

An Advisory Board of seven members representing the various districts surrounding Acme was elected to investigate the possibilities of forming an Association. This Board is to report its decision by Oct. 1st. In

the interim a Private Unit will be set up by Doctors D. M. Elliot and J. A. Greenway to be in operation as soon as possible. Date of commencement will be announced in this paper.

This Private Unit will be either carried on as such or taken over by a Co-operative Association depending on the decision reached by the Advisory Board.

SENIOR SWALWELL RESIDENTS HONORED

Mr. and Mrs. Martin Powers were honored guests on their Golden Wedding Anniversary Aug. 29th at the home of Dr. and Mrs. H. M. Elliott. Friends and relatives of the happy couple gathered from various districts. A garden party was planned but owing to the rain guests were invited into the home.

Virginia Brinson played a few selections on her accordion. A speech by Father Tennant followed. Mr. Alfred Gibson read a poem written by Mr. I. U. MacLennan. Mr. Ben Hongel made a presentation speech and presented Mr. and Mrs. Powers with a beautiful reclining chair and purse. A delicious lunch was served. Pictures of the bride and groom were taken with a beautifully decorated wedding cake. Pictures were also taken on the lawn of the people who gathered there and Mr. and Mrs. Powers. Mrs. Brinson, daughter of Mr. and Mrs. Powers, gave a few words of thanks to all those who helped in the arrangements of the party.

ACME FLOWER, VEGETABLE AND GRAIN SHOW

The Acme Flower, Vegetable and Grain Show committee with the financial assistance of the Drumheller District Agricultural Society staged another successful show on Wednesday, August 29th. There were 600 exhibits entered from 75 exhibitors and practically all shared in the prizes. The flowers and vegetables were judged by Mr. Harvey Allan, Horticulturist of the Lacombe Experimental Station and Mr. Don McFayden, Cerealist from the same station judged the grain sheaves. Mr. Allan was very impressed with both the quality and quantity of the show, and in the course of the afternoon gave some very helpful tips to the committee and exhibitors. Mr. McFayden spoke briefly on the art of making grain sheaves, and it is hoped that more farmers will put these tips to use another year and make the grain classes a real exhibit.

The ladies of the Royal Purple Lodge served a very lovely tea in the afternoon for those who came to view the Show. The ladies also took the flowers to the Acme cemetery on Thursday, placing a bouquet on each grave and conducting an impressive memorial service. Any vegetables left were taken to the Linden Home.

The Committee for the Show wishes to thank all exhibitors for their wonderful co-operation in bringing forth so many entries of such high quality, and also to reiterate the rem-

arks of Mr. Allan that they feel proud to have been a part of the Show whether amongst the prize winners or not.

The following are the prize winners:

FLOWERS

Class 1, Gladiolus, light shade

1. H. Haste.

2. Mrs. Fred Moore.

3. Mrs. Harley Gibson.

2. Gladiolus, medium shade

1. H. Haste.

2. Mrs. C. Admussen.

3. Mrs. Bill Spooner.

3. Gladiolus, dark shade

1. Mrs. Doug Brown.

2. Rose Lammie.

3. Mrs. Fred Moore.

4. Gladiolus, unnamed

1. H. Haste.

2. Mrs. Frank Emery.

3. Mrs. I. U. MacLennan.

5. Gladioli in basket

1. H. Haste.

2. Mrs. M. Hotsenpiller.

3. Mrs. J. C. Smith.

Grand Champion Gladiolus, H. Haste.

Reserve Champion Gladiolus, H. Haste.

6. Dahlia, large shaggy

1. Lena Loewen.

7. Dahlia, large decorative

y. Mrs. Bill Spooner.

2. Julia Tanton.

3. Ruth Bates.

8. Dahlia, red decorative

1. Frances Haining.

2. Julia Tanton.

3. Donna McKay.

9. Dahlia, cactus

1. Murray Bates.

2. Mrs. Fred Moore.

10. Dahlia, single dwarf

1. Mrs. Frank Emery.

2. Mrs. H. Reddekopp.

11. Dahlia, honeycomb

1. Elvira Jackson.

12. Rose, any variety

1. Frances Smith.

2. Edith Boake.

3. Mrs. Fred Hannah.

13. Rose, Hansa

1. Mrs. Harley Gibson.

2. Mrs. Mrs. Helena Reddekopp

3. Cheryl Gibson.

14. Petunias, double

1. Mrs. M. Hotsenpiller.

2. Lena Loewen.

3. Mrs. Fred Moore.

15. Petunias, single frilled

1. Mrs. J. C. Smith.

2. Lil Boake.

3. Lena Loewen.

16. Zinnia

1. Mrs. Pearl Rogers

2. J. L. Crawford.

3. Lena Loewen.

17. Sweet Peas

1. Mrs. A. W. Klassen.

2. Mrs. H. D. Merrifield.

3. Sylvia Rogers.

18. Sweet Peas with foliage

1. Frances Smith.

2. Cheryl Gibson.

3. Lil Boake.

19. Mixed Flowers, annual

1. Mrs. A. Verhaes.

2. Mrs. H. D. Merrifield.

3. H. L. Davis.

21. Centrepiece, coffee table

1. Mrs. M. Hotsenpiller.

2. Doreen Wheeler.

3. Ruth Haining.

22. Centrepiece, dining table

1. Frances Smith.

2. Marion Wheeler.

3. Lavina Bates.

23. Pansies

1. Miles Hannah.

2. Brian Hannah.

3. Mrs. M. Hotsenpiller.

24. African Marigolds

1. Sylvia Rogers.

2. Mrs. Bill Spooner.

25. Marigolds, Scotch

1. Edith Boake.

2. Lena Loewen.

3. Frances Hope.

26. Marigolds, French

1. Lucille Taylor.

2. Li Boake.

3. Mrs. Mary Thomas.

28. Phlox, annual

1. Lil Boake.

2. Frances Smith.

3. Sylvia Rogers.

29. Snapdragons

1. Mrs. Frank Emery.

2. Frances Smith.

3. Mrs. S. Semenchuk.

30. Salpiglossis

1. Mrs. M. Hotsenpiller.

2. Frances Smith.

3. Lil Boake.

31. Aster

1. Mrs. Frank Emery.

2. Mrs. J. C. Smith.

3. Mrs. H. D. Merrifield.

32. Carnations

1. Mrs. N. E. Steeves.

2. Mrs. H. Young.

3. Mrs. Pearl Rogers.

33. Clarkia

1. Mrs. Bill Spooner.

2. Lil Boake.

3. Lena Loewen.

34. Stocks

1. Mrs. J. C. Smith.

2. Lil Boake.

35. Cosmos

1. Frances Smith.

2. Mrs. Fred Moore.

3. Sylvia Rogers.

36. Lythrum

1. Mrs. M. Hotsenpiller.

2. H. L. Davis.

3. Mrs. H. Reddekopp.

37. Larkspur

1. Mrs. H. Haste.

2. Lena Loewen.

3. Frances Smith.

38. Corsages

1. Ruth Haining.

2. Mrs. P. Woodland.

3. Mrs. Frank Emery.

39. Houseplant, fern

1. Mrs. Frank Tricker.

2. Mrs. Fred Hannah.

40. Houseplant, foliage

1. Mrs. H. Boake.

2. Doreen Wheeler.

3. Lucille Taylor.

41. Houseplant, blooming

1. Mrs. A. E. Carman.

2. Mrs. Helena Young.

3. Waneta Simonsen.

Rotarians officially open Camp Easter Seal

The permanent home for Saskatchewan's Camp Easter Seal summer camping program for physically handicapped children and adults is located in the former provincial summer resort and park at Manitou Beach, near Watrous.

The provincial deputy minister of Natural Resources, J. W. Churchman, turned over title to the camp site to the president of the Saskatchewan Council for Crippled Children and Adults, J. W. B. Bremner of Regina. Mr. Churchman then declared the camp officially open as the permanent home of Camp Easter Seal.

The ceremonies coincided with a rally of several hundred Rotary Club members from all parts of the province at Watrous. The camping program is financed by funds raised in the annual Rotary Club sponsored Easter Seal campaign.

Following the official opening, the president of the Watrous Rotary Club—A. H. Burke—presented a cheque for \$57,000.00 (representing proceeds from the 1956 campaign) to the Governor of Rotary district 172—Bill Botting. Mr. Botting in turn presented the cheque to Mr. Bremner.

Close to 400 guests and visitors were on hand at the camp for the ceremonies. The mayor of Watrous—H. V. Teal—and a councillor from the village of Manitou—Walter Scott—welcomed the visitors and the camp to the district.

In opening the camp site, Mr. Churchman noted that the stone chalet and dining hall buildings were built in 1930 as a relief project during the depression years. Up until this year, he said, it had been used as a summer resort. The deputy resources minister paid tribute to what he termed: "the pioneers of this camping movement" for handicapped children and adults. He stated: "on behalf of the provincial government and my department it gives me great pleasure to turn over the title to this property to the Council, and to declare this the permanent home of Camp Easter Seal."

Camp Easter Seal this summer will accommodate an estimated 250 children and adults during its two month camping season. One group of severely involved youngsters, taken from hospitals in Regina and Saskatoon, were accommodated at the camp for a

IMPORTED BIRDS
The robin, goldfinch and English sparrow were among the birds imported to United States territory by white settlers.

Peanut Sweet!

Slice it thin, butter it generously and watch it disappear!
Here's a tasty nutsweet bread that's easy to make when you use Fleischmann's Active Dry Yeast. If you bake at home, be sure to bake some soon!

Peanut Butter Bread

- Scald 1 cup milk. Stir in 2 tablespoons granulated sugar, 2 1/2 teaspoons salt, 1/2 cup peanut butter. Cool to lukewarm.
- Meanwhile, measure into bowl 1 cup lukewarm water. Stir in 2 teaspoons granulated sugar. Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast. Let stand 10 minutes, THEN stir well.
- Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Needs no refrigeration

- Work in additional 3 cups (about) once-sifted all-purpose flour.
- Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl. Brush top with melted shortening. Cover. Let rise in a warm place, free from draft, until doubled in bulk—about 50 minutes.
- Punch down dough. Halve the dough. Let rest 15 minutes, then shape each half into a loaf. Place in greased loaf pans (8 1/2 x 4 1/2 inches, top inside measure). Brush with melted shortening. Cover. Let rise until doubled in bulk—about 40 minutes. Bake in a hot oven, 400°, 30 to 35 minutes. Yield—2 loaves.

Helpful Hints

An old test to determine the freshness of eggs is to place them in a pan of water. If they are absolutely fresh, they will lie on their sides on the bottom of the pan. If they are rather stale, they will stand on end. If very stale, they will rise to the surface.

If the children have played havoc with the panels of their bedroom door, cover the marred surfaces with the wallpaper used to decorate the room, being sure the pattern lines up with that on the walls.

To coax the last full measure of fluffiness from ball fringe trimming, allow it to dry thoroughly; then hold it briefly over a steaming kettle or steam iron.

To uncurl wallpaper before you hang it on a wall, draw the paper from the roll over the edge of the table or work-bench and as it is drawn over the edge, press down on it with your hand.

Most layer cake recipes call for lined cake pans. It's easy if you keep several weeks' supply on hand. Make a cardboard pattern to fit your standard pan. Wrap it with several thicknesses of waxed paper and cut around the pattern. Store liners on top of cardboard at baking center.

A regular soap and water bath for lamps and bulbs is necessary to good lighting. Dirty fixtures cut lighting levels as much as 50 percent.

When thawing an eviscerated turkey, do not remove the plastic bag, but simply cut an opening in the tied end of the bag in order to let warm air in. The skin will not become dry if this procedure is followed. To thaw in a hurry, immerse turkey in cut bag, in cold water.

Never cut shrubs with a knife

The gardener who uses a butcher knife to prune his shrubs is probably doing just that—butchering them.

So says Professor N. R. Elliott of the University of Kentucky extension service, who adds that any kind of knife is a poor tool for pruning shrubs. Instead, he recommends a pair of sharp pruning shears to make clean, smooth cuts. This should be done immediately after the shrubs have finished blooming.

Early-flowering shrubs such as forsythia, spirea, jasmine and japonica, should be pruned as they complete their blooms. This will keep them looking good for 12 to 20 years, while otherwise they may have to be dug up and replaced in half that time.

Here are Elliott's instructions for proper pruning of shrubs:

With a pair of good pruning snips, remove about one-fourth to one-third of the old black or dark brown canes by cutting them two inches from the ground. This will reduce the size of the shrub, producing more leaves on the lower stems and better blooms, while at the same time preserving the shape of the shrub.

After pruning, dig the soil under the spread of the branches to a depth of two inches, then scatter three or four handfuls of high grade fertilizer on the area.

Cantaloupe melons are named from Cantaloupe, Italy, where the melons were first grown in Europe.

Wheat Queen contest results announced

The Saskatchewan Wheat Queen Contest committee are pleased to announce the results of the contest which was decided recently. The winner receiving the highest number of votes is Miss Marilyn Blair of Regina, sponsored by Saskatchewan Civil Service Association. Second highest is Miss Elaine Flock of Tisdale sponsored by 4-H Homecraft Clubs. Third highest is Miss Karen Knapp of Stewart Valley, sponsored by Junior Saskatchewan Farmers' Union.

Miss Marilyn Blair is thrilled and excited at winning this coveted honor. She is 19 years old and was an outstanding pupil receiving three class pins in Scott Collegiate in Regina. She is an accomplished musician, playing piano, drums and marimba and studied tap and acrobatic dancing for nine years. She was drummer and majorette with the widely acclaimed Regina Lions Junior Band and travelled with them to Toronto, Chicago, Denver and Vancouver.

Miss Elaine Flock, the second prize winner is 18 years old, is an accomplished speaker and likes working with and meeting people.

Miss Karen Knapp is 17 years of age, teaches Sunday school class and has had four years experience in Bryant Oratorical Competition. In 1955 she won the Phelps' Trophy in the annual Provincial Saskatchewan Farmers Union public speaking contest. She has taken part in music festivals and in school dramatic plays.

The Wheat Queen and her two Attendants will be brought into Regina and will stay in the Royal Suite at the Drake Hotel at the expense of the A.C.T. Regina club.

The Wheat Queens will be officially crowned by the Lt.-Gov. of Saskatchewan, the Honorable W. J. Patterson. The three winners will receive complete wardrobes and a round of public and social activities with the courtesy of A.C.T. Regina club.

The Wheat Queen will receive an expense paid trip via T.C.A. to Chicago and chaperone, where she will attend the International Livestock and Grain Exposition for the entire week. The two attendants will receive additional cash prizes.

The purposes of this contest are to publicize the "Wheat Theme" of the Province of Saskatchewan and of the Regina Agriculture and Industrial Exhibition and to raise funds for many charitable and community projects.

Accidents on job up in industry

Falling objects caused the greatest number of accidents in May among industrial and construction workers in Manitoba, with a total of 169 being injured in this manner.

A. McIntosh, director of industrial accident prevention division of the department of labor, reports a considerable increase over April's accident figures. There were 1,091 workers injured in May as compared with 767 in April. Three of these accidents were fatal, 284 involved lost time, while 853 required medical aid only.

With an increase of 20 percent in workers engaged in the construction industry, the number of accidents increased by 90 percent, a total of 228 accidents being reported in this industry.

Two of these accidents were fatal, two involved amputations, and 224 were of a minor nature; 211 workers were injured in the metal and machine trades, but all accidents were minor ones; in the auto industry, 95 minor injuries were suffered by workers including truckers. In medical aid cases, injuries requiring only first aid are included.

RELIGIOUS DENOMINATIONS

There are about 256 religious denominations in the United States and these denominations support about 200,000 organizations.

Buildings collapse

A hotel and a neighboring house, shaken by wartime bombs, collapsed without warning in suburban St. Denis, injuring 12 persons, two of them seriously. The hotel's 35 tenants and the eight residents of the house next door were trapped but rescue workers quickly pulled all of them from the wreckage.

Boys playing leap frog on Pogo sticks

It's a shame that young kids these days don't play old-fashioned, harmless games like Leap Frog any more. They've all reached a new plateau around my neighborhood and when they want to have fun they get together and play games like "Cowboys and Dames," "Pin the Tail on the Man

from the Juvenile Court," Borrow the Cadillac," "Air Mail" (this is similar to Post Office only faster) and "Target Practice." Maybe the solution to this problem is for grownups to get rid of all the Psychiatrists and bring back that oldtime game called "Come On Out To The Woodshed." Only trouble is we'd have to start with the Grandparents taking the Parents out to the Woodshed first.

Changing thinking

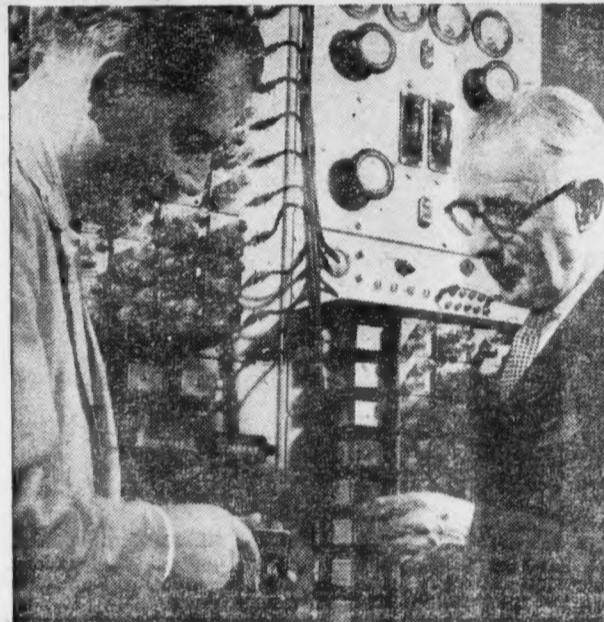

It might be argued that industrialization of the farm has had a subtle effect on the thinking of the farmer. More and more he tends to think in terms of large machines, large areas of land, large crops and large accounts, though he tries hard not to think of the income taxes that go along with these other growth factors.

20th Century Trading Post

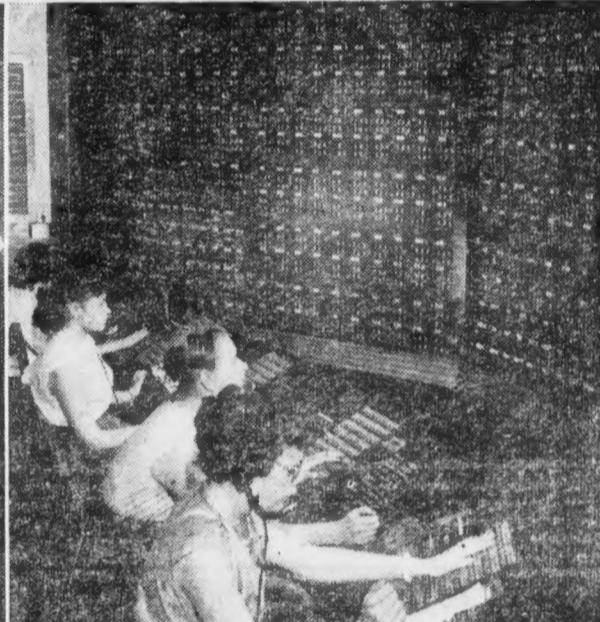

Canada's biggest and most complex market-place, the Toronto Stock Exchange auctions off the securities of 1,103 companies. The Exchange has 120 employees, 40 of them on the trading floor itself. Thousands of miles of telegraph and telephone wires connect it with 102 firms

in North America and abroad. The Toronto Exchange boasts some of the most modern equipment in the world. New display boards record bid and ask quotations in financial centres round the world almost immediately quotations are made on the floor of the Exchange.

Arthur J. Trebilcock (right), first paid president of the Toronto Stock Exchange, learns how the electronic computing machine (background) stores up market information in its mechanical brain, holding it ready for immediate use.

In the teleregister room, operators are in constant telephone contact with post boys on the Exchange floor. They report bid and ask changes which are stored on a magnetronic drum and is then sent out electronically to brokers' offices.

Post boy changes stock prices as advised by traders. There are 11 trading posts on the floor. In volume of shares traded, Toronto is the most active Exchange in North America and the largest mining Exchange in the world.

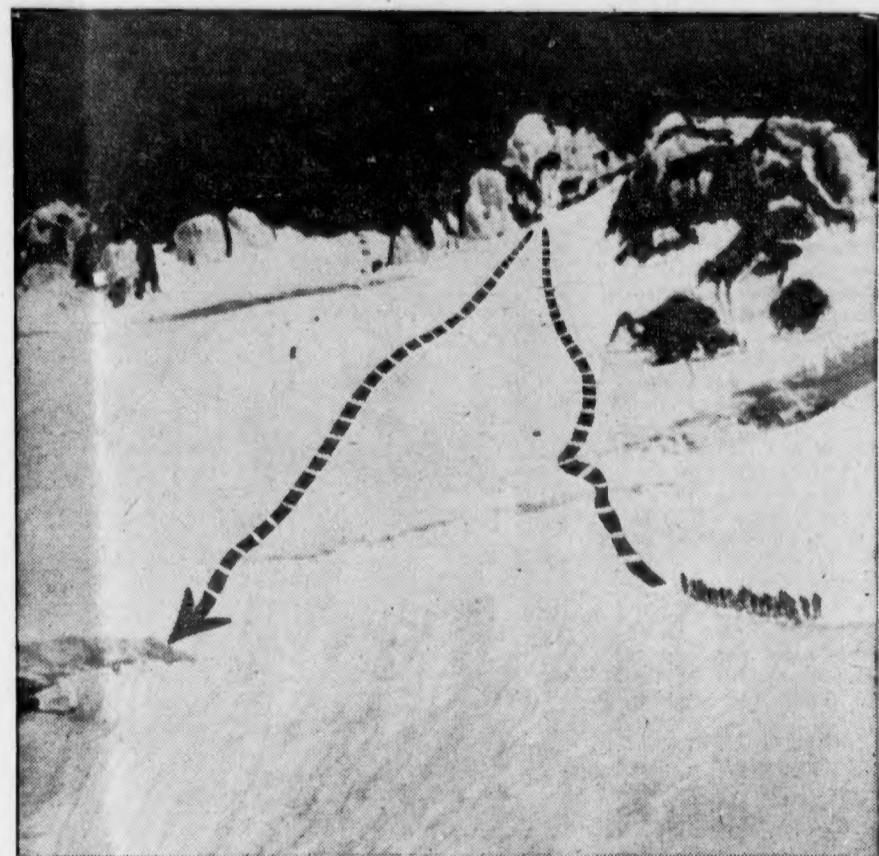

One wants to buy, one wants to sell. In such a brief exchange, stocks valued in hundreds of thousands of dollars change hands. On April 5, 1956, a record-setting 13,664,000 shares were traded, biggest day in the 104-year history of the Exchange.

National Film Board Photos by Chris Lund.

World Happenings In Pictures

MEET MISS UNIVERSE—Carol Morris, 20, daughter of an Ottumwa, Iowa, minister, is this year's Miss Universe. Chosen in competition with beauties from all over the world, Carol now bears three titles. The Duke University swimming champ is also "Miss Iowa" and "Miss U.S.A."

CLIMBERS FALL INTO CREVASSE—The 19 mountain climbers who fell into a crevasse on the slopes of Mount Hood, near Timberline, Ore., are shown in this photograph as they approached the summit. On the way down, one climber slipped and the entire party plunged into the crevasse indicated by arrow. One was killed and 18 injured.

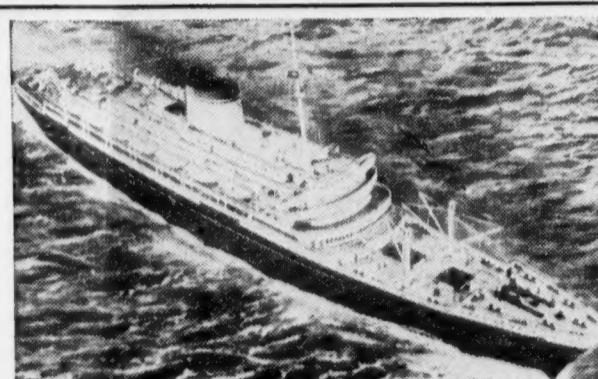

RACE CAR REALLY BURNS UP—A fireman runs toward the overturned and blazing car driven by Tony Brooks in the British Grand Prix race at Silverstone, England, after the car caught fire and overturned as it ran onto the grass. Brooks sustained only minor injuries.

ARCHIE MOORE, winner of the recent heavyweight bout at Toronto, is all smiles at left after this TKO against Canadian James Parker, right, who cries after defeat. Severe cut above Parker's left eye forced referee to call fight in ninth round.

A SURVIVOR AND HIS FRIEND—A friend, facing camera, embraces Tony DeGeorge, a survivor of the collision, who was brought to New York aboard the rescue ship Ile de France.

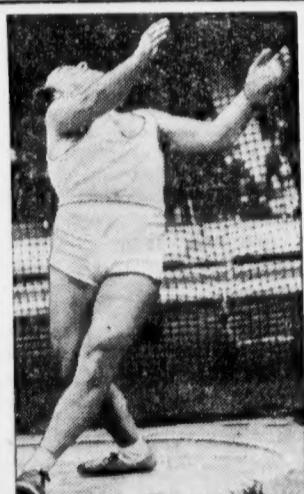

WATERY GRAVE FOR ITALIAN LINER—The ill-fated Italian liner Andrea Doria which sank after colliding with the Swedish liner Stockholm, is shown here during her shakedown trials in 1952. More than 1,600 survivors were picked up in one of the most dramatic rescue operations seen in North Atlantic waters.

UNGUIDED MISSILES

Since bottles of one sort or another seem to be the inevitable accompaniment of motorists, there should be some special container as part of standard car equipment to take care of this accumulating debris.

RHEUMATIC FEVER

A child who is suffering from rheumatic fever is better in hospital for at least the acute stages of the illness. Special tests must be made and the child requires complete rest and care which may not be available in his own home.

SHALL WE DANCE? — The waltzing Sam without his Matilda, above, is D. V. J. Anthony of London, England. Anthony ended up in this dancing pose after throwing the hammer at a track meet in the British capital. His dancing may be awkward, but he hammered his way into second place with a 186-foot, 10-inch toss.

Algae in drinking water suspected poisoning animals

Several cases of what is thought to be algae poisoning of livestock have been reported in Saskatchewan this summer, Dr. J. C. Hulet, veterinarian with the provincial department of agriculture, said.

The last known occurrence of serious poisoning was in the Fiske area between Rostown and Kindersley where six cows and two horses died after drinking lake water infected by a concentration of algae growth.

It seems that the algae, which is a form of stemless water inhabiting plant growth, produces a certain toxic substance, lethal when taken in sufficient quantities by farm animals, he said.

The farmer who suffered the recent loss of livestock at Fiske reported that during the two days previous to the animals death, a strong wind blew the water of a narrow lake into a corner of his pasture. The water turned green, indicating a heavy concentration of algae, and the animals became sick and died very shortly after drinking it.

On examination the affected animals appeared depressed, toxic, had a low blood pressure and dull eyes, and breathed shallowly. A post-mortem revealed an inflamed and bleeding small bowel, hemorrhage of the stomach and degeneration and swelling of the liver.

Dr. Hulet said there was little a farmer could do to keep livestock from being harmed by the poison, except possibly treat the water source with bluestone (copper sulphate) to kill the algae. This would not be economically feasible on a large body of water, but could be done where a dugout or large water tank were used as the source of water for stock.

WEEKLY BIBLE COMMENT

PEACE OF SOUL REWARD FOR RIGHTEOUS LIFE

There is much in life that seems to contradict declarations concerning the morbid results of sin and evildoing. Paul, in his letter to the Galatians, referred to this when he said that he had seen the wicked flourishing and "spreading himself like a green bay tree." Perhaps it was because some of these early Christians, suffering for conscience's sake and seeing others apparently in ease and contentment, may have been tempted to think that righteous living did not pay after all, that led Paul to be so specific about it. He warned them not to be deceived, that God is not mocked, that whatever men sow they reap.

It is true that we live in a world where the innocent suffer with the guilty. Jesus never promised His disciples a calm or easy way. He did promise them rest and peace. It is this that constitutes the difference between those who suffer for righteousness' sake or as innocent victims of the wrongdoing of others or from some innocent cause, and those who suffer because of their evildoings.

The records of sin and penalty are innumerable. Not long ago, a self-made millionaire in England killed himself. He had chosen the way of evil living, and the note he left behind expressed the view that all men were greedy vultures.

How different is the way of the righteous, and how well this way is expressed in the contrast between darkness and light in John's first epistle. The way of darkness is the way of lying and destruction, but the way of light is the way of cleanliness and honor and good fellowship. John reminds us that we are never entirely free of evil, that if we say we have no sin, we deceive ourselves. But he does not say that even with our sinful tendencies, it is possible for human beings like us to walk in the light and to have fellowship one with another, as we seek the companionship and help of Him who is the light of the world.

• GEMS OF THOUGHT •

• MUSIC OF THE SPHERES •

Harmony, that was it! That was what came out of the silence—a gentle rhythm, the strain of a perfect chord, the music of the spheres, perhaps.

—Richard E. Byrd.

Music is well said to be the speech of angels.—Thomas Carlyle.

There is music wherever there is harmony, order, or proportion; and thus far we may maintain the music of the spheres.

—Edmund Waller.

A song is more lasting than the riches of the world.

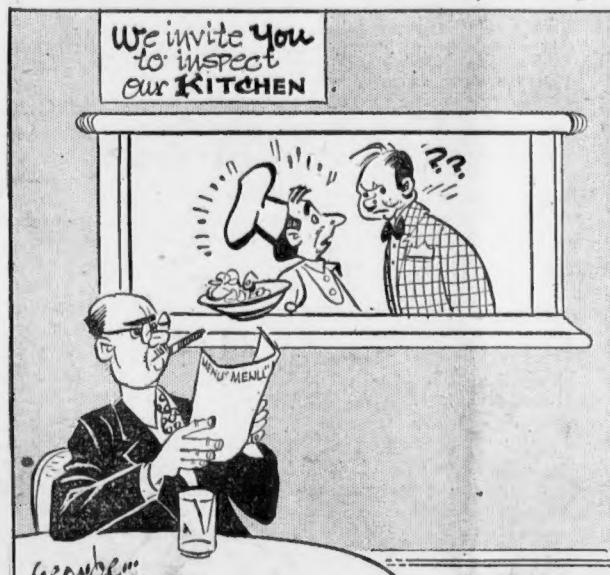

—Padriac Colum.

There's music in all things if men had ears: their earth is but an echo of the spheres.—Byron.

Pioneer smithy of Melville retires

(From Melville Advance—July 11, 1956)

When 71-year-old Wm. Redenbach hung up his hammer for the last time and went into retirement recently, he had completed a total of 54 years in the blacksmith trade.

Mr. Redenbach is the last of the oldtime Melville blacksmiths, and with his retirement, another page has been turned on a colorful phase of the past that really belonged to the pioneers of the country.

Ever since 1919, when he first set up his shop in Melville, his

WM. REDENBACH

hammer has rung on the anvil, repairing buggies, wagons, wheels, shoeing horses and a hundred-and-one jobs accomplished by means of a forge, plenty of know-how, and just plain muscle.

Since an era which started about 1938, however, with the advent of modern machinery, blacksmith shops are no longer run by 'smithy', but by machinists. There has been less and less work for the original smith in the last decade, the horse and buggy having become obsolete. And so it is that both Mr. Redenbach and his business have retired about the same time.

Blacksmithing has not always been slow, though. In the earlier years, when he was still a young man, a blacksmith's trade was a good one. He became a smithy at an early age, having apprenticeship in Bessarabia, Russia, before coming to Canada in 1913. He was born there in 1885 and did well with his trade, but the demand for blacksmiths in Canada became so great he could not resist the temptation to come to a country where opportunity rested merely on a man's own ability and initiative.

He settled in the Lemberg district for the first year and then went to Neudorf with his blacksmith trade. In 1919 he came to Melville and started into business

Indicators

Lack of appetite, feverishness, rash, sore throat and irritability may be symptoms of one of the contagious diseases that are serious in childhood. If these symptoms appear, medical attention should be obtained. If it is probable that the child has one of the communicable diseases, it is not wise to take him to the clinic where he may come in contact with other children but he should be put to bed and the doctor should be called. If there is no family doctor, advice may be obtained from the local health department or child clinic, where the nurse or local medical officer should be notified.

Canaries have been used to detect dangerous gases in coal mines as well as poison gases on the battlefield.

3207

in the same little building to which he so recently closed the doors. There were three other smithies in business at the same time; there are none of them remaining today.

There are no special plans for his retirement. He and his wife are not planning any special trips; they will spend their retirement in Melville in the same house in which they have lived for so many years.

Mr. and Mrs. Redenbach had a family of 18 children of which 16 are living today. Those still living in Melville are: Ernie, owner of the Red and White Food Store; George, Oscar, Lloyd, Marguerite and Mrs. George Hahn. Those living in other centres are: Louis, a blacksmith at Grenfell; Sigmund, Melfort; Mrs. Obie Halverson, Prince George, B.C.; Mrs. John Hahn, Edmonton; Johnny and Mrs. Bob Berryere of Saskatoon; and Miss Anne Ludwig of Toronto.

—Jack Vassos.

Six bachelors to every girl

Canadian-Chinese bachelors in increasing numbers are crossing the Pacific, usually to Hong Kong, to obtain brides.

There are six Canadian-Chinese bachelors for every unmarried Canadian-Chinese girl here, and Canadian laws stipulate that the man who wants a bride must go to China and stay three months while arranging a marriage here. He can't bring a woman from China and marry here.

Immigration laws were eased in 1947 to allow wives and unmarried children in China to come to Canada. The current crop of young bachelors here has resulted—the children from China now are adults.

There are some 3,000 young Chinese bachelors in Canada. Age group of those taking the trip to the Far East is between 20 and 30. All get brides and virtually all return to Canada.

The boys from here go to find and again woo childhood sweethearts, or to meet a prospective bride with arrangements taken care of by relatives.

Chinese-Canadians have petitioned the Federal Government several times to relax immigration requirements regarding marriages. They want prospective brides allowed into Canada unescorted, provided the prospective grooms post a bond and promise to wed within a set time.

(From The Swift Current Sun—July 25, 1956)

First ball game "under lights" scheduled for Wednesday

Swift Current's first home-lit ball game will be played in this new ball park, built by the Frontier City Recreation Club Company when the softball game between McMahon and Imperial Hotel is lighted tonight (Wednesday). As this aerial photo shows, there is plenty of space between its fences for softball action, with a distance of 212 feet from home plate to the fence. Bleacher capacity stands

at 548 people now and, if attendance keeps rising additional stands will be built to the right and left of the present structure to increase bleacher space to 1,400 people. The \$7,000 park was financed by a group of sports enthusiasts under the presidency of Gil Naylor, by selling shares in the company, holding bingo, raffles, carnival and free-will donations.

Highways pamphlet available

In an attempt to acquaint the travelling public with problems of road construction and to provide other pertinent facts, the Saskatchewan Department of Highways now has a colorful pamphlet available.

The new pamphlet, which deals with No. 1 highway between Regina and Moose Jaw, presently being brought up to trans-Canada standards, will be handed to motorists by flagmen as they pass over that section of road. They will also be available at tourist information centres on roads leading to the construction area.

Information contained in the pamphlet, which is a new innovation with the highways department, includes data on changes to be made in the old No. 1 highway to bring it up to trans-Canada specifications; an easily read illustration showing the various materials that go into the making of an all-weather road; construction and cost facts, as well as illustrations on how traffic will be handled during alterations.

Mr. L. T. Holmes, deputy minister of highways, commented: "We are fully aware of the inconvenience caused motorists during major construction jobs such as that undertaken on No. 1 highway, and feel that people would be even more co-operative if they knew just what was being done and what the result would be. With these thoughts in mind the pamphlet was produced. It is our way of saying please bear with us—our first concern is future motoring pleasure of all."

Hospital construction grants awarded

Two hospital construction grants amounting to \$6,856 have been awarded to the Balcarres Union Hospital Board by the Saskatchewan Department of Public Health.

In announcing this, Public Health Minister J. Walter Erb said the grants are being made to assist the Board toward the construction of two health centres, one at Lemberg and the other at Lipton.

The new health centres will each provide a doctor's office and waiting area, examining rooms, and laboratory and X-ray services.

The grant to assist in construction of the \$12,265 Lemberg health centre totalled \$3,186, while a grant of \$3,670 will assist in the construction of the \$20,000 Lipton centre.

STRONG SHOCKS

The strongest earth shocks recorded since the use of seismographs, around 1900, were the Assam-Tibet quake of Aug. 16, 1950, and the Colombia tremor of 1906.

Saskatoon or saskatoon?

(From The Regina Leader-Post—July 23, 1956)

A not insignificant effect of the numerous rains of this spring and summer can now be found all across the countryside of Saskatchewan.

Frequently, this effect can be noted by human beings, singly or collectively, carrying tins or pails or pans and assuming all manner of postures.

They are picking saskatoons, that luscious prairie berry, with the sweet purple fruit.

It is saskatoon season and saskatoon means pies, pies which appeal to the sense of taste and smell and sight.

Perhaps because its city bears an identical name, the Saskatoon Star-Phoenix has performed the service of reproducing the recipe for saskatoon pie from the Golden Jubilee cook book compiled by the Saskatoon Homemakers' clubs.

That recipe is reproduced here, not because the virtues of the saskatoon need to be sold to anyone, but because any cook welcomes the suggestion of variation:

4 cups of fresh, or one quart of canned saskatoons;
1 cup of sugar mixed with 1 tablespoon minute tapioca;
1 tablespoon lemon juice;
Line pie pan with pastry. Add above ingredients, put on top crust and bake $\frac{1}{2}$ hour at about 450 degrees for cooked berries, or 15 minutes at 450 degrees and $\frac{1}{2}$ hour at 350 degrees for uncooked berries.
(Saskatoons may be canned without sugar or water especially for making pies.)

The Star-Phoenix has taken the liberty of upgrading the saskatoon berry, lower case "s", to Saskatoon, upper case "S". Among many connoisseurs of fine foods, the promotion, above the ranking of the apple, the blue berry and the peach, may be wholly justified.

Even the Cree Indians from whose word, misaskwato-min, the name saskatoon was somehow mysteriously derived, might approve.

But it does not hold with Webster's dictionary, nor even with that final authority, the news desk of The Leader-Post.

Perhaps, with the Star-Phoenix blessing, the city itself, whose residents consider their community unique in Canada, might go a step further. Perhaps they might downgrade the city's name from Saskatoon to saskatoon, out of respect for the berry, with which its history is linked. Confusion be hanged.

Cities, however, may come and go. The simple and lovely saskatoon berry will outlast them all and continue to bring joy to men who live on these prairies and who love good things to eat.

Drive carefully--and live longer

(The Drumheller Mail—July 25, 1956)

Tendency toward high speed on the highways contributes to two out of five fatal traffic accidents. There is no question about it, if each driver would take it just a little easier, and not only obey the speed limits set by law but a speed limit set by common sense, we would have fewer deaths and injuries from traffic accidents.

The legal speed limits are for average good driving conditions—dry pavement, good visibility, no unusual traffic conditions for that locality. When conditions are less than ideal, speed should be adjusted accordingly. So, whenever you drive, wherever you drive—take it easy and live longer.

Drive as though your life depended upon it—because it does!

Insects by the thousands

(From The Hanna Herald)

A recent report from the department of agriculture in Ottawa listed 80,000 species of insects in Canada's national insect collection. The report added that new species are being discovered each day.

While many Canadians consider insect pests as bothersome creatures of interest only to bug collectors, the fact is they pose a great economic problem to the nation. Admittedly there are many useful insects which should be protected, but there is a vast number which cause incalculable damage to the country's rural economy.

According to current statistics the annual loss in live-stock and field crop production in Canada attributed directly to insects is in the neighborhood of \$312,000,000. This sum is staggering indeed and undoubtedly would have been much greater had it not been for various agricultural chemicals developed over the past few years.

TEARFUL SURVIVOR—The events of the day are too much for this unidentified woman survivor of the sunken liner Andrea Doria, who breaks into tears on arrival in New York.

Accidents kill far more farmers than Poliomyelitis

Needless accidents have killed more of our farm people by far than polio ever did, but unfortunately the Department of Public Health will never have a vaccine to protect people against the results of their own carelessness, Health Minister T. J. Bentley said.

Saskatchewan's third annual Farm Safety Week, according to Mr. Bentley, is to make the farm population aware of the frequency and types of accidents which kill several score of people every year and cause painful injury and dismemberment to several thousands. Last year 86 fatalities were reported, and there were an estimated 7,000 non-fatal accidents on farms and in farm homes.

"Awareness must precede a change of habits and active prevention," Mr. Bentley said. "The farmer and the members of his family have their safety in their own hands. Our department has powerful and active partners in its safety activity, but the farm resident is still the key person in this effort."

The health minister suggested careful safety checks on farms and in farm homes, and participation in community efforts to spread the word of prevention.

The special message from the department is "Take longer—live longer" and this, Mr. Bentley said, was based on the fact that not only city folk but farm people have been caught up in rush and speed. Many a farmer has thrown his life or his livelihood to the winds to save a minute in making a power hitch.

Sixteen out of 23 tractor fatalities last year occurred elsewhere than on the land. Speed and a willingness to take crazy chances were factors in a number of these accidents. Passengers on tractors, or, child operators, were also accident factors.

Mr. Bentley reported that the tractor-tilting demonstrations have been in such demand all over the province that many requests must be put off until next year. The demonstrations are a co-operative effort of the provincial health and agriculture departments and the University of Saskatchewan.

Massachusetts was the first of the colonies to issue paper money.

STOP the ITCH of Insect Bites—Heat Rash

Quick! Stop itching of insect bites, heat rash, eczema, hives, pimples, scales, scabies, athlete's foot and other externally caused skin troubles. Use quick-acting, soothing, antiseptic D. D. D. PRESCRIPTION. Greaseless, stainless. Stop itch or money back. Don't suffer. Your drug list has D. D. D. PRESCRIPTION.

Now Many Wear

FALSE TEETH

With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gumminy, oozy, pasty taste or feeling. Checks plate odor* (denture breath). Get FASTEETH at any drug counter.

Funny and Otherwise

Mother: "Why can't you be a good little boy, Bobby?"
Bobby (hopefully): "I'll be good for a nickel!"
Mother: "The idea. Why can't you be like your father—good for nothing?"

Doctor: You'll have to stop worrying and thinking about yourself so much. Throw yourself into your work!"

Patient: "But, Doc, I'm a cement mixer."

Son: "Pop, what makes electricity?"
Pop: "Don't know, son."
Son: "What makes thunder and lightning?"
Pop: "Couldn't prove it by me."
Son: "What makes—Oh, never mind."

Pop: "That's all right, boy, you go right ahead and ask questions. That's the only way you'll learn."

Nellie's two boy friends were fighting over her in the front yard. Her father remarked: "If you like one boy better than the other why don't you jump in and help him?"

"Well, papa, it's like this," answered Nell. "You've seen two dogs fighting over a bone many times, haven't you? Well, then, tell me this, did you ever see the bone join in the fight?"

A revivalist went to conduct a service in a town where he had never preached before. On alighting from the train he found in his pocket a letter he had forgotten to post. He hailed a boy standing by and asked: "Son, can you tell me where the post office is?"

"Sure," said the boy, and gave the preacher directions. The preacher thanked him and asked: "Do you know who I am?"

"No."

"Well, I'm the preacher who is preaching here tonight. You come to the service and I'll show you the way to Heaven."

"Gwan!" said the boy. "You don't even know the way to the post office!"

O'KEEFE'S BREWING COMPANY (SASKATCHEWAN) LIMITED

W. B. KNAPP

BERT BAYLEY

Mr. I. H. Borget, President of the newly-formed O'Keefe's Brewing Company (Saskatchewan) Limited, Brewers of O'Keefe's Old Vienna Lager which will soon become regularly available to the Saskatchewan public, announces that this Company will take over the brewery in Saskatoon formerly operated by Drewrys Saskatchewan Division of Western Canada Breweries Limited.

Mr. Borget states that Mr. W. B. Knapp will continue as Manager of the brewery, where preparations for the new product have been going forward.

For this purpose, Mr. Bert Bayley, Supervising Brewmaster of O'Keefe's Brewing Company Limited, has already worked for many weeks with Mr. Joe Zeilner, the Head Brewer in Saskatoon. Mr. Bayley's main responsibilities are to control quality and co-ordinate production in O'Keefe's various breweries to ensure a uniform product throughout Canada. It is largely due to his efforts that such enthusiastic public acceptance has been attained, and consumers in Saskatchewan may be confident of obtaining a product of the highest standards.

We've Something to CROW ABOUT...

NOW

PURITY 99 GASOLINES

With higher than ever
Octane rating give more
power.

Improved Gasolines

Following the Anglo American Exploration Ltd. Policy of producing Petroleum products second to none, an increase has been made in the Octane value of all Purity 99 Gasolines.

"Drive in at the Sign of the 99" Fill up with extra power, enjoy greater mileage on the road.

PURITY 99 ETHYL

Now your regular premium gasoline has had a big jump in octane numbers - There's more power at no increase in price, with every tankful of Purity 99 Gasoline . . . Second to no competitor in Octane rating.

PURITY 99 MIRACLE

For drivers of cars, with lower compression engines, offers improved, more powerful MIRACLE 99. This is in line with the general Octane increase in all purity 99 Gasolines.

BUT remember this important fact !

Higher octane gasoline will pay off with improved performance and increased mileage, only when your engine is tuned up to take full advantage of the extra power. Ask your Purity 99 Dealer for a tune up before you fill your tank with extra octanes.

Proof That

PURITY 99 PRODUCTS ARE

Second to None !
